## CALL FOR APPLICATIONS 2021

to the second edition of LABS MUFAMEX CONACYT Fellows in Europe

For the second time, in order to offer CONACYT scholarship holders in Europe new ways to meet and to enhance meeting and the possibility to valorize their research projects, MUFAMEX organizes the idea labs that will be held online on July 2 and on July 16, 2021. This activity is organized along with the X<sup>o</sup> Symposium "CONACYT Fellows in Europe", which will be held in the second next Fall.

The LABS MUFAMEX - CONACYT Fellows in Europe project is designed by and for you. The aims of this event are:

- To provide a space for interactive-digital reflection in which you can propose ideas or solutions that respond ideas or solutions that respond, in a feasible way, to a concrete case within the current challenges of Mexico and Latin America. Mexico and Latin America, from a creative and multidisciplinary point of view.
- To provide an interactive and digital environment that promotes knowledge sharing develop multidisciplinary approaches, where you can pitch new ideas that address challenges Mexico and Latin-American countries are currently facing.
- Encourage applicants who are registered to collaborate with others European and Latin-American fellows and to connect with CONACYT research centers and research groups.
- To promote in an efficient and coherent way their professional development once they have obtained their diploma/graduate, to this end, associating CONACYT Centers (CIAD, CIMAT, COLSAN) and the INSP.

To effectively promote professional growth once the fellows/they graduate, enabling them to join a CONACYT research center (CIAD, CIMAT, COLSAN, etc.) for a period of 12 months.

For this edition, there are two new features:

The meeting presents two important for this edition, there will be to new features that seek to broaden its scope and reinforce its impact on the professional career of the fellows. First, it is open to European and Latin American doctoral students. We have added new conditions of participation.

First, European and Latin American PhD students are eligible for this call.

In addition, MUFAMEX has ensured direct contact between the fellows and CONACYT and INSP Centers, inviting them to be part of the scientific Committee. This committee has been responsible for designing and proposing problems and will be in charge of assessing and ranking participants.

2 y 16 DE JULIO 2020

Participants must be [registered](#) in pairs on the form provided. The following form is required to be registered as a pair. The Mexican fellow will invite a foreign colleague to participate and will submit a proposal regarding one of the problems to be addressed. The proposal will be reviewed by a scientific committee that will give participants feedback (July 2<sup>nd</sup>) and will rate the best oral communication for each issue. Will rate the best presentation for each problem (July 16<sup>th</sup>).

The best teams will join the Centers and/or the NPHI (in accordance with the modalities decided by the Centers and the NPHI). In this regard, the problems are divided into the following fields of research: (1) Artificial Intelligence (Centro de Investigación en Matemáticas, CIMAT); (2) Health (Instituto Nacional de la Salud Pública, INSP); (3) Agri-food (Centro de Investigación en Alimentación y Desarrollo, CIAD), (4) Human and Social Sciences (El Colegio de San Luis, COLSAN).

You will find further information in [the document attached](#), which we kindly ask you to consult. Please find attached further information regarding the research centers. Details of the dynamics of the MUFrames LABS will be communicated soon. We recommend you to keep you informed of any significant developments related to the event in the private group created on Facebook, as well as on the page dedicated to the MUFrames LABS.
